

## Tell Us Where To Go To Help You

Name of location being a Household, Business or Government.

- Household     Business     Government

Note: In relation to our Volume Paint Pickup (VPP) Service!

When referring to any business organization, the word business includes any entity (non-profits, foundations, NGO's and etc.) of which is not a household or government organization.

## Water Based Waste Estimation and Certification

For Water Based paint and products, determine how much you generate each month. These are product that there is no need to have a hazardous waste company manage. Make sure to include all water based products (all latex paints, curing compounds, sealers, adhesives, acrylic coatings, etc.) in your subtotal. For comparison purposes 220 pounds is the approximate equivalent to 100 kilograms, which is 20-30 gallons depending on the solids in the material.

Please answer MORE than 220 pounds if you generate MORE than 220 pounds of oil-based paint and other hazardous waste per month. And if not, please answer LESS than 220 pounds if you generate LESS than 220 pounds of oil-based paint and other hazardous waste per month.

Do you or your organization generate MORE or LESS than 220 pounds of water based paint waste per month?\*

- More     Less

## Please Provide The Pickup Location Address

Pickup Street Address*	<input type="text"/>
Pickup City or Town*	<input type="text"/>
Pickup State*	<input type="text"/>
Pickup Postal or ZIP Code*	<input type="text"/>
Pickup County*	<input type="text"/>

## Please Provide The Primary Contact

Primary Contact Name*	<input type="text"/>
Primary Contact eMail	<input type="text"/>
Contact Preferred Phone*	<input type="text"/>
Preferred Phone Extension	<input type="text"/>
Contact Alternate Phone	<input type="text"/>
Alternate Phone Extension	<input type="text"/>

## General Name and Type of Site Information

Name of Individual, Business or Government Organization.

Type of Individual, Business or Government Organization Site\*

| <input type="radio"/> Construction Company | <input type="radio"/> Hospital or Medical    |
| <input type="radio"/> Property Owner       | <input type="radio"/> Household / Individual |
| <input type="radio"/> Property Manager     | <input type="radio"/> Other                  |

## Oil Based Waste Estimation and Certification

For Oil Based paint and hazardous waste products, determine how much you generate each month. Think in terms of what a hazardous waste company should be managing. Make sure to include all chemicals (all paints, thinners, pesticides, acids, etc.) in your subtotal. Just for your comparison purposes, 220 pounds of liquid waste material is the approximate equivalent to 100 kilograms. This is equal to about 20-30 gallons depending on the solids in the material.

So, here again, answer MORE than 220 pounds if you generate MORE than 220 pounds of oil-based paint and other hazardous waste per month. And, answer LESS than 220 pounds if you generate LESS than 220 pounds of oil-based paint and other hazardous waste per month.

Do you or your organization generate MORE or LESS than 220 pounds of oil based and other hazardous waste per month?\*

- More     Less

## Please Provide The Mailing Address

Same As Pickup Address

Mailing Address	<input type="text"/>
City or Town	<input type="text"/>
State	<input type="text"/>
Postal or ZIP Code	<input type="text"/>
County	<input type="text"/>

## Please Provide An Additional Contact

Additional Contact Name	<input type="text"/>
Additional Contact eMail	<input type="text"/>
Contact Preferred Phone	<input type="text"/>
Preferred Phone Extension	<input type="text"/>
Contact Alternate Phone	<input type="text"/>
Alternate Phone Extension	<input type="text"/>

### How Many Water Based Containers

Tell us the number of water-based product containers you have for each container size. Water-based products include but are not limited to latex paints, acrylic paints, latex primers, water-based stains, and clear coatings. Water-based product Labels will typically state "clean up with water." If you don't have water-based paint products for the listed size, please enter "0" for each size container.

1 Quart (Or Smaller)*	<input type="text"/>
1 Gallon Can*	<input type="text"/>
5 Gallon Bucket*	<input type="text"/>
55 Gallon Barrel*	<input type="text"/>
275 Gallon Tote*	<input type="text"/>

### How Many Oil Based Containers

Tell us the number of oil-based product containers you have for each container size. Oil-based products include but are not limited to Alkyd-based paints, solvent-based paints, oil-based primers, oil / solvent-based stains and clear coatings. Oil-based product labels will typically state "clean up with paint thinner" or "combustible." If you don't have paint or chemical product for the listed size, please enter "0" for each size container.

Quarts (Or Smaller)*	<input type="text"/>
1 Gallon Can*	<input type="text"/>
5 Gallon Bucket*	<input type="text"/>
55 Gallon Barrel*	<input type="text"/>
275 Gallon Tote*	<input type="text"/>
